VOL. XVII—NO. 87. PORTLAND, OREGON: WEDNESDAY, MAY 16, 1877. PRICE—TEN CENTS.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Great Fire in Brooklyn.

NEW YORK, May 13.—A fire which lasted all day and destroyed about $400,000 worth of property, broke out at 10 this morning in Brooklyn in Campbell & Thayer's oil works, a building six stories high, which occupies half a block. A few minutes after the alarm was given the engines of the building and several workmen on hand attempted to attach the hose, but without avail. The police alarm sounded, and the fire department promptly responded. While a second alarm brought reinforcements. The flames spread rapidly and soon reached the sixth story. The block in which the fire occurred is bounded by Washington, Front and Main streets. Adjoining is a number of small stores and tenements, and a large brick factory on Front street, connected by oil tanks with the main building. By means of these tanks the fire communicated to two near buildings, and when the fire seemed thoroughly under control it suddenly flamed forth more furiously than ever. About 4 P. M. the fire broke out in the adjoining buildings on Front street. There the flames spread so rapidly that the firemen were compelled to fall back, and by o'clock nothing but the walls remained. The occupants of the tenements rushed into the streets, where their furniture had been hurriedly piled. Frank Hollen, a fireman, in trying to escape from a dangerous position, jumped from the roof of the Front street building to an adjoining house, a distance of 35 feet, all and in fired his back seriously and was taken to the hospital. The superintendent for Campbell & Thayer says that in the Water street building there was 35,000 gallons of oil in casks on the floors, and 30,000 gallons of oil in tanks in the cellar. There was also about $30,000 worth of linseed in cakes. The press and machinery was valued at $30,000, in the small building, and in the rear there were $30,000 worth of machinery and $35,000 worth of oil; on the upper floor $25,000 worth of oil. In the other building there was 25,000 cases of oil, $30,000 worth of machinery; on the upper floors $5,000 worth of stock. The damage to the building on Water street, $30,000; to small buildings $10,000. In the Front street building there was $60,000 worth of linseed, $30,000 worth of machinery, 30,000 gallons of oil and $10,000 worth of other material. Loss on building about $30,000; total insurance about $300,000.

Catholic Festivities.

NEW ORLEANS, May 13.—The golden jubilee of Pope Pius IX. was celebrated at New Orleans to-day by a grand military and civic procession, and mass meeting at Lafayette Square.

Strike Ended.

CLEVELAND, May 13.—The Standard Oil Co. coopers, 1,500 in all, who struck three weeks ago will return to work on Tuesday on the company's terms, but with a promise that as business revives wages will be increased. The company also offers not to employ boys, but give all work to men.

A Way to Check a Panic.

WASHINGTON, D. C., May 13.—This afternoon during a temperance rally, where over 3 000 persons were present, the discovery of burlaps smoking in the cellar caused a stampede. An old lady started "Glory Hallelujah" promptly, which was taken up by those on the stage and the fears of the crowd. A man named Laird has been arrested on suspicion of an attempt to fire the building.

A Large Claim.

NEW YORK, May 13.—A claim is made upon Wm. H. Vanderbilt by Fennie C. Claflin, for over $100,000, the proceeds, as she alleges, of ten thousand dollars deposited with the Commodore in 1871, for speculative operations. Vanderbilt says the claim is ridiculous.

Paper Mill Burned.

BRISTOL, Mass., May 14.—The paper mill of Torrey, Jr., at Dalton, burned this morning with contents; loss $75,000; insurance $53,000.

Beecher on Chinamen.

NEW YORK, May 14.—Beecher, in giving police yesterday of a lecture by Prentiss Mulford upon the Chinese in California, said: We are in danger of repeating toward the Chinese those errors and mistakes and cruelties we were guilty of towards the African. It is the spirit of lion and bear, that will not suffer anything to come near them without pouncing upon it their paw, and it is animal blood curdling and tearing the animal among nations that rends the weak and poor in their neighborhood. If this great civilization cannot endure the contact and presence of the Mongolian race, it is right they should lose their religion and civilization and their vaunted christianity. We are fond of exporting the gospel to heathens, but we do not seem to like the importation of heathens where the gospel ought to exist in all its vigor. I am not sure but it would not be a good plan if we should export some of our own heathens and bring back in their places some heathens of other lands.

Turkish Barbarism and Russian Magnanimity.

NEW YORK, May 14.—The *Herald's* cable gives details of the sinking of a Turkish frigate before Ibrail. They are unimportant, the only point being that the Turks refused to go to the assistance of their own steamer while the Russians went, but did not succeed in saving any lives.

Heavy Robbery.

NEW YORK, May 14.—Pellisier & Co., jewelers, of Broadway, were robbed of a trunk containing property valued at $25,000, while in transit from Worcester, Mass., to New York.

Hall at Liberty.

The *World* says Detective Golding, who arrested yesterday per steamer *City of Richmond*, Mike Ayle Babbitt, the defaulting clerk, was one of the officers attached to the mayor's office at the time Hall was mayor. Golding was a witness in Hall's favor. Golding said yesterday, during his sojourn in London he visited Scotland Yard and sent up a card to Chief Bruce, excuse himself from an interview but made an appointment for the following evening. Golding kept the appointment but failed to appear.

The Remedy too Late.

BROWNSVILLE, Tex., May 8.—The *Ranchero*, one of the leading Republican papers of Texas, is lamenting on the press report from Washington that the cabinet recently discussed the matter of cattle raids on the Rio Grande, and that Gen. Ord will receive instructions to cross into Mexico in pursuit of cattle thieves, so that during the time of actual raids it has most earnestly denounced each and every outrage, and implored the protection of the government for the citizens of Texas, who were being despoiled by the marauders, and that for the past fifteen months there has been no retaliation on the Rio Grande and challenges a refutation of the assertion.

Obit.

DENVER, May 14.—H. H. Emmons, judge of the Sixth Judicial U. S. Court, died this morning.

Fool Hardiness.

NEW BEDFORD, May 14.—Thomas Crapo and wife sailed hence on the 25th for London, in a 15-foot boat, expecting to make the voyage in 40 days.

The Rockford Disaster.

ROCKFORD, Ill., May 14.—Two more bodies were taken from the ruins of the courthouse yesterday; those of A. P. Hollenbeck and Frederick Paugh; but so terribly crushed and dismembered as to be unrecognizable.

The memorial services last night were attended by an immense audience. A fund of about $1,500 is raised to aid families of the deceased, and sums are coming in from other cities.

Tilden Sulky.

NEW YORK, May 14—Tilden has not accepted the invitation, as ex-governor, to the annual banquet to-night of the Chamber of Commerce, at which the President is to be present. The fact excites unfavorable comment.

Freight to Jacksonville is two cents from Roseburg and three cents from Redding.

THE WAR IN THE EAST.

Great Battle at Batoum.

The Russians Repulsed with Loss of 4,000 Men.

Operations on the Danube.

Military Movements in Asia Minor.

ERZEROUM, May 13.—A detachment of Cossacks advancing to Bask Kay was driven back to Kokissmann.

Turkish reinforcements have arrived on a large scale. There is a scarcity of provisions at Alexandropol.

Russians endeavored to obtain information by tapping the wires between Kars and Erzeroum, but immediately discovered by the questions asked that the inhabitants of Erzeroum contribute largely for the defense of Kars.

The Fight at Batoum.

The *Telegraph's* special from Batoum says: At 5 o'clock Friday morning the Russians made a furious attack upon the heights defending Batoum on the land side occupied by Bashi Bazouks. The Ottoman troops were entrenched and opened a terrible fire of cannon and musketry, which literally mowed the Russians down in swaths. They fell by scores and hundreds on the plain below the Turkish position. In attempts to make way against this fire a body of Turkish horse and foot taking advantage of the thick forest, broke forth upon the flank of the Russian column and effected great slaughter, the Muscovites being upon ground which was perfectly open, having no choice but to fight or fly. In a short time the spot became covered with dead and dying Russians, but the enemy quickly brought up reinforcements and the battle was renewed with much determination. For many hours the efforts of the assailants were desperately maintained, but towards midday their artillery fire gradually slackened and they at length withdrew, after suffering considerable losses. An eye-witness of this important engagement testified that the Ottoman soldiers behaved admirably. They had the advantage of entrenchments, however, on high ground, and it is due to this fact, no doubt, that their losses, compared to the Russians', were insignificant.

The *Telegraph's* Batoum dispatch, dated Saturday, says the victory was won by the extraordinary courage of the Bashi Bazouks. The dead and wounded Russians exceed 4,000. The engagement lasted over eight hours, active fighting. The last of the Russians did not withdraw until near midnight. The Russians lost many guns. The only Turkish officer of note killed was Khad Bey, major of irregulars.

Turko-British Amenities.

CONSTANTINOPLE, May 13.—The Chamber of Deputies voted an address thanking the British government for its reply to Gortschakoff's circular.

Eager for the Fray.

LONDON, May 13.—A Widdin dispatch dated Sunday, says an attack from Roumania is apprehended. The strong Turkish force is enthusiastic, in excellent condition and thoroughly prepared.

The Sunken Monitor.

LONDON, May 13.—Rutschuck dispatches mention an accidental explosion on board a monitor anchored at Matchin, probably the monitor sunk by Russian batteries.

The Porte in a Bad Way.

CONSTANTINOPLE, May 13.—The Porte is very uneasy about supplies of arms and ammunition still to come from New York, and is very angry with America for allowing the Russian squadron to remain in American waters. The bad feeling is increasing.

Affairs at the Turkish Capital.

Turkish journals already advocate the massacre of Christians. The English representative has demanded explanations. Many Turks resent the idea of the friendly occupation of Constantinople by England, and say if England wants to help Turkey she should do so on the Danube or in Asia. There is great uneasiness among European residents. Many have left.

Suspicious of the Khedive.

The Khedive's actions are watched. It is known he has been tempted previously by Russia, and it is thought if the Turks suffer any important reverses the temptation will prove too strong for him.

The Russian Ensign.

BUCHAREST, May 14.—The Russian troops passing here have exchanged the ordinary colors for flags bearing a double Greek cross, carried only when the war is a religious one.

England Purchasing Supplies.

PERA, May 14.—It is learned on good authority that England has ordered a well known banker here to purchase a hundred thousand head of cattle.

Derby's Note Tabooed.

LONDON, May 15.—All the Russian journals except the *Journal de St. Petersburg* have been forbidden to reproduce Earl Derby's note.

The Russian Side of the Story.

ST. PETERSBURG, May 14.—A dispatch officially contradicts the reported attempt of the Russians to cross the Danube at Reni and the defeat on the 9th.

Kalafat Bombarded.

BUCHAREST, May 14.—A correspondent says it is stated in official circles that Turkish vessels built in Perth are completed and have arrived in the Danube above Kalafat. The Turks commenced a violent bombardment of that place on the 13th, to distract attention. Roumanian batteries were unharmed.

Extensive movements of the Turkish cavalry are observed from the Roumanian side of the Danube.

The Turks threaten to bombard Giumnitza, cross the river afterwards and plunder the town.

A Turk Raid.

LONDON, May 14.—Bucharest journals state that Turks have crossed the Danube at Cracharesch, stolen 1,200 sheep, killed the shepherd and some cattle.

General War Notes.

BUCHAREST, May 13.—The Turks endeavored and failed Saturday to land at Ctenitza. Gen. Manu asked for reinforcements.

CONSTANTINOPLE, May 13.—Count Schouvaloff has arrived from London.

LONDON, May 13.—The circular of Count Andrassy to Austrian representatives abroad announces that Austria will consider any declaration of independence by Roumania null and void.

TRIESTE, May 13.—The Austrian and German ambassadors have embarked for Constantinople.

Roumanian representative left Constantinople Saturday.

CAIRO, May 13.—The British ironclad squadron will arrive at Port Said on the 16th of May.

It is believed the Egyptian government will be able to send 10,000 troops to Turkey.

LONDON, May 15.—Moukhtar Pasha asks reinforcements.

McKillop Pasha has been entrusted by the Khedive to prevent interruption of the passage of the Suez canal.

Russo-Servian diplomatic negotiations have been transferred from Belgrade to St. Petersburg, owing to the conduct of the Russian Consul General toward Prime Minister Ristics.

BELGRADE, May 15.—The first class of the militia has received orders to be in readiness, provided with four days' provisions.

The exportation of corn and beef from Servia has been prohibited.

WEST INDIES.

Flour.

ST. THOMAS, May 13.—Flour in consequence of the war in Europe $14 per barrel.

A tusk has just been exhumed from the mud of Lake Labish, Marion county, which is fourteen inches in diameter at the base and is twelve feet long, terminating with a curve. It is plain that the animal mired there, and search will be made for the skeleton.

WASHINGTON CITY.

Strict Neutrality.

WASHINGTON, May 15.—The reply of the State Department and formal notification by Turkey of existence of state of war between that power and Russia, is to the effect that the United States will continue to occupy a strictly neutral position towards the belligerents. A similar reply be furnished Russia.

Baker, minister to Russia, will return to St. Petersburg the latter part of this month.

Douglass' Lecture.

All Sunday papers have articles severely condemning the recent lecture in Baltimore by Douglass.

The President will leave for New York in the morning.

Oregon Appointments.

WASHINGTON, May 13.—Chas. DuBois has been appointed additional inspector of customs at Portland.

John C. Cartwright is made collector of internal revenue for Oregon vice Denny, resigned and appointed consul at Hiogo.

Customs Regulations.

The grape brandy bonded warehouse regulations, after long deliberation and repeated revisions, have been finally prepared by the Commissioner of Internal Revenue and approved by the Secretary of the Treasury, and will be mailed to California to-morrow.

Defending the Land Commissioner.

Great injustice is done to Commissioner Williamson, of the General Land Office, by California newspapers in saying he is in a ring of land grabbers, or is to any degree responsible for fraudulent scrip entries in California. On the contrary, a large portion of his life, since he entered the office, has been occupied in cancelling fraudulent entries of soldiers' homesteads and other scrip in California and elsewhere. The scrip reported from California has been carefully examined, and those based on spurious papers canceled. Williamson says there is no reason to doubt that most if not all these spurious papers were purchased by California parties in good faith, because no permanent resident would attempt to obtain patents on forged papers whose spuriousness could not possibly escape detection.

Time Extended.

WASHINGTON, May 14.—The time for receiving bills on miscellaneous mail routes in Arizona has been extended by the Postmaster General to June 20th. Bids for other Pacific coast routes will not be received later than June 9th.

The Specie Payment Question.

The *Star's* Washington special says: Sherman, in conversation this afternoon said he hopes to proceed under the bill without interruption. The country had reached hard pan prices. We were on a specie basis and it would be little less than cruelty not to take any steps to relieve the people of the incubus of an irredeemable currency. His chief fear was of the false apprehension prevalent at the West, which had spread to other parts of the country, that by resuming the government would strip the country of its paper currency and leave nothing but gold and silver for the payment of debts and the transaction of business. He declined to say whether Hayes would or would not veto any act extending the time for redemption. The signs were good and he proposed to go forward steadily.

Blaine and Hayes.

The *World's* special from Washington says: Blaine had a protracted interview with the President yesterday, which was arranged, when they met in Philadelphia on Thursday. It is understood that a very full and frank discussion on the course which has been pursued thus far especially as regards the Southern policy. It is needless to say Blaine did not give it his support, though he did not put himself in open and avowed opposition to it. Now that the Nicholls and Hampton governments are placed on their feet he was willing to await the result of what he regards as an experement, but at the same time is doubtful of its effect on the two political parties. He does not share the belief of the President's advisers that it will divide the Democratic party in the South and build up the Republican party there. On the contrary, he fears it will consolidate the former and obliterate the latter.

Blaine and Hale.

Blaine met his colleague Hale yesterday for the first time since Congress adjourned. The latter is an earnest supporter of the administration. His withdrawal from the following of the Senator indicates clearly the truth of the rumors of a break up in the Maine delegation. This has been an open secret for some days.

A Temperance Question between Grant and Hayes.

Grant has been indifferent alike to the President and the policy of the new administration which had its outgrowth in a matter which his friends regard as somewhat peculiar to himself. Soon after Hayes took possession of the mansion he announced that temperance principles would prevail there and that all intoxicating beverages were to be excluded. The New England Methodist Conference at once re-echoed the sentiment in a formal resolution expressive of satisfaction in pointed terms of the new reform and sent the same to the President. Grant has construed this simply as a reflection on himself and does not appreciate the motive which announced such a decision or the spirit which reiterated it in a formal way, for his friends understand that neither has any foundation in truth. They say that wine is not excluded from the executive mansion. They have been served at every public dinner given in the last two months precisely as they were served by him and never any controversy over their exclusion, including the dinner given to Alexis and the subsequent one given to the Louisiana commission, reports to the contrary notwithstanding.

An Old Letter from Blaine on the Adams Family.

NEW YORK, May 14.—A letter of James G. Blaine, written in December, 1875, has just come to light, which seems to show what provoked Charles Francis Adams' recent statement to a newspaper interviewer reflecting severely upon Blaine. The party to whom Blaine wrote, in conjunction with Sam Bowles and Nordhoff, urged Blaine to abandon the hope of the Presidency and go for Adams and become chief of the latter's party. Blaine, in the course of a reply, said: "The cant and nonsense which Bowles, Nordhoff and yourself put forward about Adams as the coming man, both amuse and enrage me. When he comes, the Republican party is gone. It would not be Adams' fall, but his rise that would ruin us. No Adams ever yet headed a party without taking the life out of it. Don't talk to me then, I pray, about nominating Charles Francis Adams as our candidate for the Presidency, unless you mean death for us without resurrection. The Republican party can be beaten under some candidate in 1876 and still have a future, but if it should win with Adams it would never breathe again. The day of his inauguration would be the day of its funeral. He is not the equal in talent of his father or grandfather; although I have a very slight personal acquaintance, I judge him to have a plentiful supply of the qualities which made the Adamses the conspicuous failures among our early presidents."

Postal Affairs.

WASHINGTON, May 13.—Postoffice established—Howard, Wasco county, Oregon, G. W. Miller, postmaster. Postmasters appointed—Simon Albee, Bethel, Polk county, Oregon; J. R. Caldwell, Carlton, Yamhill county, Oregon; J. L. Miller, Monument, Oregon; S. P. Pearson, Centerville, W. T.

The Empire of Japan has been admitted to the postal union from and after June 1st, and Brazil and Portuguese colonies from July 1st. Postal rates are fixed by the United States for prepaid, addressed to and prepaid received from Japan, by direct steamers between San Francisco and Yokohama, as follows; prepaid letters, 5 cents per 15 grammes (half ounce); unprepaid letters received, 10 cents per 15 grammes; for postal cards, 2 cents each; for newspapers, if not over four ounces in weight, 2 cents each; registration fee on all correspondence, 10 cents. The rates applicable to Brazil and Portugese colonies, and to Japan when forwarded via Europe, are for prepaid letters, 10 cents per 15 grammes (half ounce); unpaid letters received, 15 cents per 15 grammes; postal cards, 4 cents; registration fee on correspondence, 10 cents.

The Filibuster Scheme.

WASHINGTON, May 14.—It is thought in official circles that undue importance is attached to the reports of the filibustering expeditions to invade Northern Mexico, as our government will enforce the neutrality laws with regard to Mexico the same as to any other power with which we are at peace.

The Cattle Stealers.

The feeling of the administration is that our citizens must be protected from raids of cattle thieves, if not by the Mexican government, by our own, and therefore the conduct of Mackenzie may become a precedent for action in the future.

Gone to New York.

President Hayes and Mrs. Hayes left for New York this morning.

PACIFIC COAST NEWS.

Pinney in Court.

SAN FRANCISCO, May 14.—Geo. M. Pinney was examined before the commissioner of the fourth district court to day on an order issued on complaint of Alex. and Chas. Forbes, who claim possession of a judgment against Geo. M. Pinney, O. H. Bogart, L. D. La Montagne, Ishom Case and the Mahogany Mining Co., for $10,443, and that they bel eve W. B. Carr has control of property belonging to Pinney, which they want applied towards satisfaction of the judgment. Pinney testified that on his departure from San Francisco he intrusted to Carr property consisting of money, mining stocks, real estate, etc., to the value of upwards of half a million dollars, to be devoted to liquidation of his indebtedness to banks and individuals on certificates of indebtedness negotiated by him, and that Carr has neglected to so dispose of the property in question. His examination will be continued to-morrow, to be followed by the testimony of Carr and others.

Political.

SAN FRANCISCO, May 13.—The first impression that Brady and Mannix, or the ring crowd had made a clean sweep of the Democratic primary, was somewhat premature. The tickets are very much mutilated, and the result not yet obtained. Reformers claim to have elected a good portion of their ticket.

The Sonora Expedition.

Inquiry concerning the rumor telegraphed from the East that expeditions were to leave here for a filibustering scheme in Mexico fails to elicit anything confirmatory of the report.

More Chinese and Smallpox.

The Pacific Mail steamer *City of Tokio* which arrived this morning brought 1,115 Chinese passengers, the greatest number ever arrived by one steamer. New cases of smallpox are making their appearance continually among the quarantined Chinese passengers per steamer *Tasika*. Several were removed to the pest house yesterday and to-day, making 24 in all.

Peremptory Stock Sale.

SAN FRANCISCO, May 14.—A sale of a large line of stocks was held at the rooms of Newhall & Co. this afternoon. The sale was peremptory to cover advances. The stocks is said to have belonged to parties in the East. The terms were cash in gold coin, all assessments paid. The sale attracted several hundred people, and took place between the regular sessions of the boards. The prices realized were fully up to the morning rates.

Death of an Ex-Judge.

SAN FRANCISCO, May 15.—A Carson (Nev.) dispatch says Charles H. Bryan, ex-judge of the Supreme Court of California, died here today while a dinner, a piece of meat strangling him.

Revival of Some Ugly Charges.

SAN FRANCISCO, May 15.—The *Chronicle* publishes a dispatch from Washington which is a reiteration of the charges against Senator Sargent, Collector Shannon, District Attorney Van Dyke, Special Attorney Dwinelle and others, for alleged connection with the whisky ring and irregular conduct of custom house affairs, published from time to time about a year ago, when special treasury agents were investigating the administration of revenue and custom house offices of this coast. A portion of the report is made up of letter from Special Treasury Agents Phillips and Crane to Secretary Bristow and Bluford Wilson.

Russian Fleet Leaves San Francisco.

The *Vastock*, a Russian corvette, sails to-day under sealed order. The rest of the fleet will follow during the week.

Brokers at Work.

SAN FRANCISCO, May 15.—The big board of brokers took important action at the executive session this afternoon. It was decided that informal sessions should be held at the same hours as here before, but that such informal sessions the caller and secretary or assistant shall be present and all transactions recorded. No outsiders will be allowed to deal at informal session as has been the custom, but all must be made by brokers themselves. The board came to the conclusion that any attempt to regulate stock prices would be futile, and the public must be left to their own devices as to what figures they are willing to buy and sell at.

NEVADA.

Another Victim.

VIRGINIA, May 14.—John McCurdy committed suicide last night by poison. He was a wagon maker and lost his all in stocks, and was out of employment.

Stage Robbery.

PRESCOTT, May 14.—The stage which left Prescott for California on Saturday, was robbed three miles from Wickenburg, the mails mutilated, and $800 to $1,000 worth of registered bullion taken. The passengers were also robbed.

BY ATLANTIC CABLE.

Notable Deaths.

LONDON, May 13.—Lord Erskin and Marchioness of Lothair are dead.

PARIS, May 13.—Louis Joseph Ernest Picard, advocate and statesman, is dead.

Fire.

GLASGOW, May 13.—Wingate's ship yard on the Clyde was partially burned, damage $40,000. The principal loss being machinery, constructing for the Dutch government.

Smallpox.

Smallpox is raging in Sistova. The American missionary, Chalfiss and family caught it. Mrs. Chalfiss died.

The Dakota's Passengers.

LONDON, May 14.—The steamship *Wisconsin* sailed from Queenstown to-day with the passengers of the wrecked steamship *Dakota*. Wreckers expect to save a portion of the *Dakota's* cargo in a damaged state.

Debate by the English Commons.

LONDON, May 14.—In the House of Commons this afternoon, Bourke, Under Secretary of the Foreign Department, said immediately after the outbreak of the war the government learned of an iron clad built for Turkey lying at Victoria docks and took steps to prevent infringement of the foreign enlistment act. Stafford Northcote, Chancellor of the Exchequer, said, Egypt, forming a part of Turkey, is certainly at war with Russia. Russia therefore has a right to blockade Egyptian ports and invade Egypt.

Report of M. W. Grand Master.

The Grand Master then submitted the following report, which was referred to the following special committee: P. Gs T. M. Gatch, A. G. Hovey, H. G. Struve, E. L. Bristow and A. L. Stinson:

To the R. W. Grand Lodge of Oregon:

Representatives.—Another year has been added to our history as an Order. The past year has witnessed the steady onward progress of Odd Fellowship in this jurisdiction. Nothing has occurred to mar the harmony or detract from its usefulness, and, although death has again entered our ranks and removed from our midst some of the pioneers of the Order in this jurisdiction, and brought sorrow to some hearthstones, we have great reason for gratitude to the Supreme Ruler of the universe, who has watched over us and prospered us as an institution.

As representatives of the Subordinate Lodges in this Grand Jurisdiction, you have assembled from all parts of the Jurisdiction in Annual Communication, to deliberate upon the state of the Order and to transact the usual business of the Grand Lodge. I extend to you, each and all a hearty welcome and fraternal greeting and express the hope that the present Communication of the Grand Lodge may be characterized by its harmony and the wisdom of its legislation.

Since our last Annual Communication, two of the Past

WEDNESDAY MORNING, MAY 16, 1877.

REOPENING OLD QUESTIONS.

Renewal of assaults on the constitutional amendments and the statutes enacted thereunder to secure civil rights and enforce equal suffrage, rather rudely awakens many who had begun to rest quietly under a belief that this fruitful source of old political differences would never be reopened. From many quarters there is a simultaneous attack; the fourteenth and fifteenth amendments are arraigned as the infamous product of force exerted in a tyrannical way on a subjugated people, and the laws to punish crimes against the elective franchise and civil rights are denounced with the choicest epithets in the vocabulary of angry partisanship. From all this only one inference is possible. Those who make the assault want to deprive the general government of the power to enforce the rights which the amendments confer. Such an effort could spring only from a spirit of hostility to the principle that the recently enfranchised class is rightfully entitled to its new privileges. When the organs that assume to speak for a party, the Portland *Standard* among them, begin once more with the old drivel that the blacks ought not to have the suffrage because it is not proper for whites and blacks to intermarry; when they reclaim against the constitutional amendments and the statutes devised to give them force and effect,—some of the organs going so far as to make loud demands for repeal,—what is it that inspires such a course except hostility to the colored citizen's rights? Attempts will be made to mask the design by various devices, but this is the under lying motive. Every person knows that it is not possible to overturn the defences by which the rights of this large class of citizens are protected, without destroying the rights entrenched behind them; and every one knows further, in spite of all insincere disclaimers on the part of those engaging in this movement, that they are actuated by no other purpose.

There are multitudes who have been entertaining a hope that the bitterness of controversy over old political questions was wholly past. We do not now assert that an entire party is resolved to reopen this debate and renew the strife; but there are signs of such a purpose in many quarters, and the movement may as well be carefully watched. True conservatism will stand by the amendments and the laws which give them a meaning and make them a living force. It is under certain of these laws that several hundred persons are being prosecuted in South Carolina for outrages committed in connection with the so-called election by virtue of which the party in whose interest this violence was perpetrated is in possession of the government of the State. Repeal these statutes, and the work of quelling the colored vote would hereafter be easy and safe. The object is apparent. It is to prevent free elections in sixteen States and to hold them as a solid political force to the fortunes of a single party. If it is the intention to allow free elections, the offending amendments and laws are entirely harmless. It is said they are subversive of our system of government. But a government will scarcely be subverted by protecting and enforcing the rights of its citizens; though false notions as to our system of government may be subverted in this way. It has been pretended that every measure to enforce the Constitution and laws since 1860, has been in hostility to our system of government, and many are the lamentations of this sort that have been wailed forth, to die upon the unheeding air. Isn't it time, at length, that this should be stopped altogether, and that men of all parties should recognize fully and without reservation the rights of all classes, and acquiesce in the protection of those rights by the Constitution and laws?

TIMBER LANDS.

Yesterday we were shown a letter from Grundy county, Iowa, in which the writer requests to be informed whether there is any timber land in Oregon near the sea coast, which can be taken up by persons who may desire to establish homes. It is said there are several families in the writer's vicinity who desire places of this kind. No doubt there are tens of thousands in the Eastern States who would be glad of such opportunity as these persons seek; and if they could know that Oregon is exactly the country they are inquiring for, they would come right along. Nearly the whole timbered parts of Oregon lying along the coast, extending from the northern to the southern boundary of the State and embracing an area three hundred and fifty miles in length by forty to fifty in breadth, are waiting for claimants. Though much of it is mountainous, it is not more so than the densely inhabited districts of the Appalachian chain extending from Northern Alabama as far as New York and Vermont. In this part of Oregon, destined to become one of the richest portions of the State, there are fine valleys almost without number, and immense tracts of somewhat elevated but nearly level table lands, in many places not difficult to clear and possessed throughout of an inexhaustible soil. The only sections having little or no value are the high spurs and steep ridges, which occupy but an unimportant part of the whole area. The timber in many localities is not excelled, if indeed it is equaled on this coast or elsewhere, and will in progress of time become very valuable. So of the minerals, and especially coal and iron. The time will come when within the limits we have been describing there will be a million inhabitants, where now there are not ten thousand; and it is not a hazardous prediction to say that this will be witnessed by persons now living. This part of our State offers special attractions to people who would like to settle near the sea coast on timbered lands. There are many such. Let them come.

We have already spoken of the appointment of Mr. Cartwright as collector of internal revenue, and intimated that it was not in accord with civil service methods, which would have required the appointment of one of the present deputies of the office to the principal position. In this we make no attack on Mr. Cartwright. But now that his appointment is reported, it seems necessary to say a word more. Civil service reform will mean little so long as it rejects its own rules and doctrines. Those who supposed the President meant what he said when he announced a new method, had a right to expect in this case that one or other of the men long in the service, known for high character and for full acquaintance with the details of the business, would be appointed. That would have been the natural thing, and a fulfillment besides of a promise made to the country. In this case it would also be a saving of one salary to the government, since the appointment of one of the present deputies as chief would have sufficed for the transaction of the business, without any addition to the force of the office. President Hayes will not be able to carry off the honors of reform in this way. What has been done in this case is decidedly open to criticism on the reasons we have stated. It is plain that "influence," on personal and partisan grounds, is still allowed, in some cases at least, to have more weight with the President than he can justify by his promises of adherence to a higher system. It is enough to add that what has been done is known to be Senator Mitchell's way, but there are many who though they had reason to believe it would not be President Hayes' way.

The customs service at this port did not need another inspector. Since the Hawaiian treaty went into effect receipts of the port have fallen off one half; yet the number of officers has been much increased. When there is not employment for the inspectors already on the rolls it is not civil service reform to appoint more.

A rate is quoted at San Francisco for war risks on merchandise from that port to Europe by British vessels. It is but one-half of one per cent., showing that not much fear is entertained that Great Britain will engage in the war.

In California the enterprising men who are trying to utilize the desert land law, and prevent it from being a dead letter, are called "desert snatchers."

Blaine's judgment of the Adamses as political leaders is roughly stated, but is the essence of historical truth.

OREGON.

Drummers are the affliction at Jacksonville.

The annual State meeting of the Christian church will commence the 14th of June at Dallas. The grounds are being put in excellent condition.

Union county has just finished a new court house, built of brick. It has ample accommodations for county business, and is a handsome structure.

Jackson county has let a contract to James Miller to build a bridge across Rogue river at the upper crossing of that stream. Contract price only $360.

The costs of a suit in Umatilla county for the recovery of a mare valued at $100, were $431 04. But perhaps there was a good deal of fun for the money.

James R. Neil has been elected school director at Jacksonville, in place of John Bilger, deceased, and a five mill tax has been levied to support the public school.

Brownsville is in a state of excitement over a quartz ledge, which they have named the Wide West. Only 15,000 feet on the ledge have as yet been taken. Don't all rush at once!

The *Times* (Jacksonville) says the English company now working extensive diggings on Galice creek is considering the purchase of the Sterling creek mines. There is a vast strip of pay-dirt yet remaining in that section which requires only capital and enterprise to make it pan out.

The fruit crop on the Umatilla river has been little injured by frosts. Observations in that locality for a number of years show that on streams running toward the west, frosts are more likely to occur with damaging results than on those running to the south or north, or nearly so.

The man Sheppard who was cut with a knife in the hands of one of the Cooper brothers, near Amity, last week, while trying to separate them as they were fighting, is very seriously injured. The point of the knife was broken off and stuck in the breast bone. Tom Cooper has been committed to answer for the offense.

THE TERRITORIES.

The old Catholic church at Idaho City caught fire from a flue and burned to the ground. Loss $2,000.

At Walla Walla two of the "solid farmers" have make a novel bet. The wager is 200 bushels of wheat on the result of the war. The one who backs Turkey isn't scared a bit.

A man named David J. Richards, formerly a stage driver in Idaho, was drowned in the Hot Springs near Austin, Nev., on the 30th ult. He was bathing. The water is so hot that one can remain in it but a few seconds. When taken out a few hours afterwards the body was parboiled, the skin peeling off in large flakes.

In Owyhee county, Idaho, there is a singular state of things. Lien holders who have furnished labor and supplies have attachments of important mines. They are anxious to push the suits, and the defendants want them put off. It was intimated and threatened when the grand jury was called, that unless these cases were tried, no indictments would be found. This intimation or threat has been carried out and no indictments found. The stage robbers and other prisoners must be turned loose. There is evidently a good deal of hot blood in Owyhee over these troubles.

The Walla Walla *Watchman* tells this: Al. Reeves was at work at Dr. Blalock's saw mill, and last Monday he took a notion to come to town. He thought he would ride down the flume—which is about three miles long—and secured a long plank and set sail, and away he went at the rate of about 15 miles an hour. Those who witnessed the feat say it was a grand sight. He laid flat down, head up and coat tail fluttering in the breeze. The spray dashed over him like a Yellowstone geyser, but on he went for about a mile at a furious rate. While in the act of adjusting matters, one corner of his craft touched the side and spilled him overboard and over the flume in a violent manner, hurting him quite seriously if not fatally.

DIED:

In this city, May 15, Mrs. Cressentia Lampert, aged 50 years, 2 months and 8 days.

AN ERRONEOUS IMPRESSION.—Mention has been made of an injury said to have been inflicted on a lad named Charles Estes at the public school some days ago by a playmate. It has occasioned considerable talk in the town. Yesterday we took pains to learn the facts. The incident referred to at the school occurred nearly three months ago. The lad was not struck by a stick, but by the hand of a school fellow in a playful manner as he was passing into the school building at the tap of the bell. Charles, as we are informed, was acting as monitor. The other boy, in passing, threw out his hand, not in malice, but thoughtlessly, as boys will. It struck Charles, who complained for a time of a hurt, but it was soon forgotten. Nothing more was thought about it till recently, when he began to complain of severe pain in the back, which recalled the circumstance. He grew rapidly worse, and last evening was lying in a state of unconsciousness, the malady, as the physician says, being cerebro-spinal meningitis. Dr. Ghiselin, we are told, says there is not the slightest connection between the accident at school and the disease under which the child suffers, and Mr. Estes attaches no blame. His son is of a highly nervous temperament, of large brain, and therefore, perhaps, liable to an attack of this nature. We make these statements by request, in order that the circumstances, which, in view of the child's condition, are sufficiently painful, may not be made more painful still by the circulation of an erroneous impression.

SOUNDINGS OFF COLUMBIA RIVER BAR.—It will be remembered that in February last the board of trade of Portland delegated Mr. Jas. P. Montgomery, while in Washington, to represent to the government and members of Congress the desirability of an appropriation being passed to fit out a government vessel to make soundings off the Columbia river bar for a distance within a circle of 30 miles of the north buoy. Mr. Montgomery succeeded in getting an appropriation passed by Congress by showing the urgent necessity there existed for the same for the benefit of the merchant marine service and for the people of Oregon, and accordingly the coast survey office at Washington promises to have a vessel fitted out and dispatched to Oregon, and would appoint the board of trade when she was ready for service. NOTES FROM ALBANY.

Our regular correspondent sends the following items under date of May 13th:

David Sires of Seattle, was in this city this week.

Mr. Maine is confined to his room with rheumatism.

The merchants are doing a lively business at this time.

Quite a number of new buildings are now under way in this city.

The recent rains in this county has greatly benefited the wheat crop.

The picnic last Saturday, connected with the public schools, was a success.

Prof. Emery, of Corvallis, preached for the Congregationalists last Sabbath.

The city sawmill is running on full time,—sash and door factories being busy.

The hotels of this place appear to be crowded with strangers and others who are here on business.

A grand opening for those who wish to buy good horses, as this is the great wheat center of the State.

Excursions and picnics are now in order. The picnic at Roberts' bridge next Saturday is likely to be largely attended.

A large amount of machinery is being sold to farmers this year as the crops are likely to be much greater than ever before.

Mr. Richards, of Portland, made this city a flying visit a few days since, looking after his interests in the stove line. He thinks that everybody should patronize home manufacturing. In this he is right.

Engine Co., No. 2, made a great display on Friday last, as they were out in full uniform, headed by the brass band. They marched through the principal streets, giving their many friends an opportunity to enjoy the occasion, as Albany fire companies take no back seat with her sister cities.

AMUSEMENTS.

"FAUST."—Gounod's great master piece was presented last evening at New Market Theater to a very fair audience. The crowded condition of our columns prevents an extended notice. Sufficient to say that the opera was presented in a style thoroughly artistic and to the pleasure and satisfaction of the large audience. Miss Winston as "Marguerite;" Mr. Tilla as "Faust," and Mr. Farley as "Mephistopheles," each acted and sang their respective roles with force, expression and strict regard to dramatic effect. This evening Flotow's beautiful opera "Martha" will be repeated for the last time. A crowded house may be expected.

PICNICS.

The members of the St. Andrew's Society and their friends will hold a picnic at Aurora Saturday, 26th inst. During the day a number of races, Highland sports, games, etc., will be indulged in.

Great bargains in embroideries at J. Harris & Son's.

TWENTY DOLLAR FRAUDS.

Many months ago we published an account of a somewhat ingenious trick played by some swindlers in San Francisco by rolling up pieces of lead pipe in coin wrappers with a half dollar in each end so as to perfectly imitate an ordinary $20 roll of silver coin. The trick was soon detected, and of course had to be abandoned. A case of fraud, however, has just been unearthed here. A few days ago Mr. Quimby, of the American Exchange, received a dispatch from Wells, Fargo & Co. as follows:

SAN FRANCISCO, May 12, 1877.

L. P. W. Quimby: The five rolls given to me by Platte Burr proved to be lead bar. He says there is more in your safe; examine deposits from W. B. Henry. W. G. WEST.

The dispatch was immediately placed in the hands of Chief of Police Lappeus with instructions to track the matter up. Steps were taken for the arrest of the man Henry, who has for a time been stopping at the Exchange, and at noon on Monday he was arrested at the dinner table. He was asked for some sacks of coin which he had deposited in the hotel safe, and though not willing at first to comply, finally did so when the sacks were found to contain twelve rolls of lead pipe cut off the proper length, the ends closed and the inside filled, it is supposed, with shot. These pieces were carefully rolled in ordinary coin wrappers resembling in form, size and weight a twenty-dollar roll of silver. The sack was carefully sealed up, just as he claimed to have received it by express from a woman in Seattle with whom he had been living. He was held in custody to await the arrival of Col. West from San Francisco, and in the meantime he is serving five days in jail on a charge of vagrancy which was preferred against him. He had no money whatever, and did not even have the usual half-dollar at each end of his lead pipe rolls. His recent landlord is very likely out to the amount of his board bill. Henry had deposited some of the bogus rolls with other parties in the city, probably to elevate his credit among business men.

A PERSONAL MATTER.

TO THE EDITOR OF THE OREGONIAN:

Mr. J. F. Atkinson, publisher of the *Sunday Welcome*, has boiled over because I exposed the attempt made to injure the business and peace of East Portland, by publishing the report that the smallpox was raging here. He assumes the whole responsibility, then turns around and unloads on the local contributor, who he says lives only a few blocks away. I don't know who he is, and if he can give us the smallpox one day and the black measles the next, I have no anxiety to form his acquaintance. As to the personal insinuations made against me by Mr. Atkinson, the publisher aforesaid, in this morning's OREGONIAN, have no reply to make, except to make an apology to the editor of the OREGONIAN for provoking a controversy whereby the publishor of a contemptible sheet, like the *Sunday Welcome*, has found an excuse to publish his name and advertise his character in the columns of a respectable newspaper. A publisher who would permit his paper to attach blame to a careful engineer because his engine should accidentally run over an unfortunate deaf man, and that, too, after he had been fully exonerated from all blame, by a jury of six good and honest men, or to accuse a sober and respectable engineer of being drunk because he could accidentally fall overboard while repairing his boat in the night—I say such a "publisher," or such a "news monger" is either a fit subject for the insane asylum or utterly destitute of all those redeeming qualities of a man. Last Sunday we had the smallpox, to day he gives us the black measles; that is worse than ever. We wait to see what he will give us next. I. N. SANDERS.

TWENTY DOLLAR PRIZES. FEAST OF WEEKS. PASSOVER FEAST COMING AND GOING.

PORTLAND, May 15, 1877.

TO THE EDITOR OF THE OREGONIAN:

On Thursday evening next will begin the lovliest festival in the cycle of Jewish holy days—Shebuoth, the *Feast of Weeks*, so called, its time being determined by the counting of seven weeks from the festival of Passover. Its original character was that of a harvest festival. With us it marks the beginning of summer, the season of life reawakened, of nature awaked from its winter trance, and the commemoration of the birth of Israel as a nation that was to be the God appointed standard bearer of *Divine Law*, of *Morality* and *Humanity*. As such the two-fold character is well blended. Without that mission, without that clear well defined consciousness of God, without that morality and law with which Israel's life became infused, it would have perished among the nations; it would have passed away in the winter of idolatry, ignorance, credulity and inhumanity which knows not the resurrection of summer; it would have sunk into the last grave into which multitudes of nations have sunk without leaving a trace of their path. With Moses as their Lawgiver, with the revelation of Sinai, as the grand inauguration of a life of eternity, with the laws and principles delivered unto them, which to-day yet are the guiding chart of humanity, Israel became truly a nation appointed, *chosen* by God, and as such, immortal, undying, irrepressible.

Of course, were we to turn the Bible, which contains the record of Israel's birth and first entrance into the rank of nations, into an idol, and we would do this, were we to accept it as literally the word of God; were we to inscribe "*Infallibility*" upon any instrument that distinctly bears the marks of the wear and tear of centuries; were we to do this then we would violate the fundamental lesson, which the spirit of the Bible teaches us; we would be acting contrary to the entire philosophy and traditions of Jewish religion. Nothing that is fallible, that is human, can be brought into direct connection with God; nothing by which the conception of God would necessarily become associated with attributes that partake of the character, shape and color of human passion, weakness, inconstancy, can find a place in the truly Jewish polity and dispensation.

According to the Jewish religion God shapes the course of humanity through laws that are as firm and constant as the physical laws which we can trace; there is no room in the Jewish system for miracles. Nature, the handiwork of God, admits of no interference; but if we say nature, we pronounce a word that to our conception implies a miracle. We know not how it sprang into existance, what period it took to set the heavenly bodies into eternal rotation, what the law is according to which the higher organism evolves from the lower; in that sense we are surrounded by a world of miracles, but all within nature, within the laws fixed immutably by Him from the time that He issued His fiat, "*Let there be light, let there be life.*"

Had Israel embraced the framework of its mission; the ceremonial practices, the temporary institutions, by which expressions were given to ideas as the essence of revelation—it would not have outlived the storms through which it passed; had Israel searched for the spirit and found it, and it became immortal. As a race, physically considered, it would have been swallowed up long ago in the Carybdis of nations; as a people conscious of being the standard bearers of a God-form ideal, they became immortal, as the Master who sent them forth on this errand. On the anniversary of the revelation on Mount Sinai, we take our children and lead them, as it were, anew to the Mount of Revelation. We consecrate them as missionaries, as the standard bearers of the Judaism of the future. And as the iron heel of the infuriated fanatic, or the livid flame of the enraged bigot could not make a lasting impression upon Israel's career, so neither will the fascinating seduction of the materialist and nihilist make a great impression. The faith of Israel is rooted deep in the soil of centuries; it is imbedded in the heart man. It teaches us that *our life must be an epic of religion*; that without science, without study, without investigations, *without doubt*; true religion is impossible. But we will not abdicate our right in favor of a claimed infallibility, be the claimant the Pope, or Darwin, Hackel, Tyndall, Spencer, &c. There is *One* who is infallible, and in His name all speak, all work, all strive; to Him all pray, and that under Him all mankind may become united is the hope and faith of Israel.

In the Beth Israel Synagogue Rev. M. May will confirm, on Friday at 10 A. M., 14 candidates to the religion of their fathers. ISRAELITE.

Cheerfulness the Offspring of Health.

That equable state of mind which is unruffled by trifling incidents, and looks on the sunny side of things in general, is the result of a healthful state of the brain and stomach. The dyspeptic and nervous invalid may—although this is rare indeed—feign cheerfulness and bear the harassing symptoms which persecute him with an assumption of heroic indifference, but in reality he is the victim of despondency. To experience genuine cheerfulness of mind, the stomach must recover its lost tone, the thinking organ its normal quietude. Hostetter's Stomach Bitters are the best remedy for mental depression, since they overcome the nervous debility and indigestion which originate and foster it. Persons suffering from infirmities peculiarly incident to the decline of life, ladies in delicate health, and convalescents, derive solace and vigor from its use. Drive away the blues and revive the drooping energies with this grand stimulative tonic.

The many internal revenue seizures now taking place in San Francisco need not disturb the dealers in Noble Whisky, as the proprietors guarantee it a straight distillery and that every gallon has paid its tax. Millard & VanSchuyver sole agents, 89 Front street.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment that cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your whole family a winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. THE NATIONAL DISEASE.

Is it Curable?

THOSE WHO HAVE SUFFERED FROM THE various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, want the answer to this question with considerable anxiety. And well they may: for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and frequently serious and fatal affections of the lungs follow, in many cases, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

It can be Cured.

IT CAN BE CURED. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications, the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleaned and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

Sanford's Radical Cure

IS a local and constitutional remedy, and is applied to the nasal passages by insufflation with Dr. Sandford's improved inhaling Tube, which accompanies each bottle free of charge; and internally or constitutionally, where, by its action on the mucous coatings of the throat and stomach, it frees the system from the poison generated by Catarrh. Until this good result is effected no permanent cure can be made. Thus the united action of this remedy is superior to all others or combinations of others.

Sanford's Radical Cure

HAS worked a revolution in the treatment of Catarrh; it has demonstrated beyond all doubt that this disease, even in its severest forms, is curable, and that comfort and happiness may be made to follow years of misery, years of suffering, by a persistent use of it. The method of treatment originated by Dr. Sanford, viz., the local and constitutional, by a remedy prepared by distillation, is the only one ever offered to the public that will bear the test of time.

Sanford's Radical Cure

Is Prepared by Distillation.

EVERY plant and herb that yields its medical essence to it is placed in an improved still and there mingled with a solvent liquid, which, by heat, is made to pass over into the receiver, bearing with it the healing essences or juices of these plants or herbs free from every contamination, pure and colorless. Thus the active medical constituents of thousands of pounds of herbs may be condensed in one very small compass. In this way SANFORD'S RADICAL CURE is divested of all the nauseating, worthless features of all other remedies, while its curative properties are increased tenfold. It is positively the greatest medical triumph of the age.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all wholesale and retail druggists throughout the United States. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston.

VOLTAIC PLASTERS

An Electro-Galvanic Battery Combined with the Celebrated Medicated Porous Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY.

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has flec. the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, soothing and strengthening properties are well known to thousands. When combined in accordance with late and important discoveries in pharmacy their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its functions and unitedly produce more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. Try one. PRICE 25 CENTS.

Sold by all druggists, and sent on receipt of 25 cents for one, $1.25 for six, or $2.25 for twelve, carefully wrapped and warranted, by WEEKS & POTTER, Proprietors, Boston, Mass.

GRAND LODGE PROCEEDINGS.

[Concluded from First Page.]

every dollar received upon assessments, is paid in silver and must pay fifty cents at a time, the Association being composed principally of individual members. If the organization is to be continued some plan should be adopted less cumbersome and more economical. I am not sufficiently informed as to the practical working of the present plan to advise the amendments needed in details, and for farther information, I refer you to the report of the Actuary of the Association.

INCORPORATION OF LODGES.

The records of the District Deputies disclose the fact that many subordinate lodges in the jurisdiction are still unincorporated. The importance of incorporating lodges has heretofore been brought before the Grand Lodge. At the Annual Communication of 1875, a form of Articles of Incorporation for subordinate lodges in harmony with the laws of Oregon and the usages of the Order, was adopted, but the recommendation of Grand Master Struve of the passage of a resolution requiring the submission of all Articles of Incorporation of Subordinate Lodges to the Standing Committee before filing, was not adopted.

I believe the Incorporation of Subordinate Lodges is calculated to add much to the security of the property of the Lodges, and the rights of members, and I recommend this passage of a resolution requiring all Subordinate Lodges in the Jurisdiction to become Incorporated, and all Articles of Incorporation to be submitted to the Grand Lodge if in session, and when the Grand Lodge is not in session, to the Standing Committee for approval, before the same are filed.

LEWISVILLE LODGE.

On the 6th of December last, I received through the R. W. Grand Secretary, a letter from the officers of Lewisville Lodge, No. 44, announcing that on the night of December 3d, the hall with their charter and all their records was burned, and asking for a dispensation to "meet and try to rally again." The R. W. Grand Secretary at once tendered them such supplies as they might need to start again, and upon the 9th of January, I issued a dispensation to the Lodge to continue work the same as if their charter was in existence.

I recommend that the action of the Grand Secretary be approved, and that a charter be issued to said Lodge.

ANNIVERSARY.

On the 6th of April, 1877, I issued a dispensation to all Lodges Subordinate to this R. W. Grand Lodge, to appear publicly in the regalia and jewels of the Order at the celebration of the 58th Anniversary of the introduction of Odd Fellowship in the United States, and to celebrate said Anniversary in any manner not inconsistent with the laws and usages. The Anniversary was generally celebrated and in many places in a very imposing manner.

CONCLUSION.

To the District Deputies and to the officers of the Grand Lodge for their promptness and faithfulness in the discharge of their duties, and for their uniform courtesy, and especially to the R. W. Grand Secretary whom I have freely consulted, to R. W. Grand Warden for his efficient labors in visiting and instructing the Lodges of Eastern Oregon, and to Bro. A. J. Marshall, P. G. M., for the manner in which he performed the duties of the office of R. W. Deputy Grand Master, while that office was held by him, I desire to express my thanks.

And now, conscious that I have made mistakes—feeling that my duty in the honorable and important office to which one year ago you were pleased by your suffrages to elevate me, has been but imperfectly performed, but hoping that I have been able to do something to promote the elevation of the character of our beloved Order in this Jurisdiction, and with a heart true to the principles of Odd Fellowship, I congratulate you upon the increasing prosperity of the Order and again welcome you to the labors of the Grand Lodge.

In Friendship, Love and Truth

J. B. DOLPH, Grand Master.

Owing to its extreme length, and the crowded condition of our columns, we have been compelled to omit a portion of the M. W. Grand Master's report, but present the most important features in full.—[REPORTER.]

The R. W. Grand Secretary submitted the following report, which was referred to the Finance Committee:

Report of the R. W. Grand Secretary.

I. O. O. F.
OFFICE OF THE GRAND SECRETARY,
OREGON CITY, May 14, 1877.

TO THE R. W. GRAND LODGE, I. O. O. F.—*Sire and Brethren:* I again have the honor of presenting my annual report of the transactions of this office for the year past:

STOCK ACCOUNT.

Supplies on hand as per report	$ 814 57
Purchased during the year	803 17

Lewisville Lodge No. 44 met with the misfortune of having their hall, together with all their property, destroyed by fire. Upon receiving notice of the same I immediately sent supplies to the amount of $44 90 to enable them to continue their good work in our beloved Order.

I respectfully ask this Grand Lodge to donate to said Lewisville Lodge No. 44, I. O. O. F., the supplies thus furnished, and that I may take credit for the same, as they are reported as on hand.

Respectfully and fraternally submitted,

J. M. BACON,
Grand Secretary.

Actuary's Report.

The Grand Secretary and Actuary of the W. & O. R. A. submitted a report of the various amounts received, and from whom they were received, and to whom paid, from which we simply call the following as the most interesting portion.

RECAPITULATION OF TOTAL PAID, AND TO WHOM

No. 1.	H. R. Watts, of No. 18	$ 387 50
2.	J. R. Wilkinson, of No. 16	448 00
3.	Chas. Bender, of No. 35	506 50
4.	R. M. Baker, of No. 39	518 50
5.	J. P. Losey, of No. 3	620 00
6.	O. H. Smith, of No. 25	513 50
7.	A. G. Tripp, of No. 3, W. T.	514 50
8.	C. L. Furgeson, of No. 26	478 00
9.	Jno. Neuber, of No. 10	484 00
10.	James A. Holmes, of No. 11	434 00
11.	Demas Bench, of No. 4	440 00
12.	Wm. Broughton, of No. 3	434 50
13.	A. S. Ramsey, of No. 18	432 50
14.	A. R. Brown, of No. 24	438 00
15.	L. Aldrich, of No. 3, W. T.	404 00
16.	C. H. Maguire, of No. 3, I. T.	407 00
17.	F. Pfugh, of No. 10	416 00
18.	A. N. Arnold, of No. 4	415 00
19.	J. H. Demmill, of No. 4	415 50
20.	A. G. Hash, of No. 20	357 00
21.	A. Fisher, of No. 8, W. T.	344 00
22.	A. B. Cosper, of No. 1	349 00
	Total	$9,032 50

J. M. BACON, G. S., in account with W. & O. R. A.

To discount on silver sold for legal tender	$68 85	
Amount received admission fee new members	7 50	
		$76 35
By expressage paid on money sent	$ 7 45	
By postage paid	63 75	
		71 20
On hand		$ 5 15

The duty of attending to the W. & O. R. A., is the most laborious of any that the Grand Secretary has to perform, as but very few of the Lodges have attached themselves to the organization; consequently most of the membership are composed of individual members. In case of death, it requires two letters to be sent (notice and receipt) to each Lodge or individual, averaging nearly 500 each time, the postage alone being about $15 for each. The law requires each Lodge or individual to pay in current funds and expenses; very few comply in either case, but send silver, which has to be exchanged into currency before I can pay beneficiaries, which causes delay and expense.

I would suggest that the law be so amended that the same fund paid in may be paid to the recipient. Fraternally submitted, J. M. BACON, Actuary.

R. W. Grand Treasurer I. R. Moores, presented his annual report, which was referred to the Finance Committee.

The report of the R. W. Representatives was then read by R. W. G. R. Struve and ordered spread upon the journals.

The hours of meeting were fixed from 9 A. M. to 12 M., and from 2 to 5 P. M.

A resolution was presented by P. G. M. Bristow, instructing the R. W. G. Master to appoint all standing committees at the commencement of every session to hold for one year or until their successors are appointed; adopted.

P. G. M. Morris presented a resolution requiring secretaries of each odge to report Representatives-elect to the Grand Lodge Secretary at least 15 days prior to the session of the Grand Lodge. Adopted.

STANDING COMMITTEES.

The M. W. Grand Master made the following appointments of standing committees:

Committee on Finance—A G Walling, J M Patterson, J M Scott, E E Turk and E L Powell.

On Correspondence—J J Murphy, H Hansen, Wm Braden, J H D Gray, C M Kellogg.

FINANCE AND COMMERCE.

Financial.

TUESDAY EVENING, May 16, 1877.

Gold in New York, 106⅞.

Legal Tenders in Portland—buying 94½, selling, 95.

Silver Coin—1@2 per cent. discount.

A description of the local financial market appropriate yesterday would be equally so to-day. The same condition of quietude prevailing for a month past in fact is still noticeable, and though the aggregate of transactions is about up to the average for the season, in volume, there is nothing tending to produce the least excitement in the market and matters move on very smoothly, the banks supplying their regular customers and meeting the few calls coming from outside parties with the usual readiness. Loanable funds are reported in ample supply, and at the rates demanded, borrowers only present themselves when compelled by sheer necessity, as but few opportunities offer for better paying investment than loaning money.

The *Commercial Herald* says of the condition of the San Francisco market: "There is plenty of cash, no demand, business sluggish and rates for loans, 8@10 per cent." The bottom having dropped out of stocks, San Francisco feels the shock in her other business departments.

Domestic Produce.

The market for breadstuffs locally has undergone no change so far this week. Wheat is occasionally offering, but only a few buyers are willing to accede to holders' prices. Oats are in fair receipt and prices rather below former quotations, 67½ cents per bushel being a fair quotation for good. Provisions and dairy products are coming forward in sufficient quantities to supply the current demand. Eggs are abundant and dull sale at 15@16 cents per dozen. Wool is coming in but slowly, with no special change in rates or the outlook of the market

Crops in Kansas.

CHICAGO, May 14.—The *Tribune* this morning publishes reports from 31 counties in Kansas. In nearly every county the total acreage under cultivation largely exceeds that of last year, and wheat, oats, rye, barley, etc., never looked better. Corn planting is delayed on account of the backward spring, but a few localities the grasshopper question is the unsolved problem as yet, but it is generally settled that Kansas will almost wholly escape the destruction of her crops by locusts this year.

San Francisco Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, May 15.—Wheat—Shipping, $2 70@2 75; milling, $2 75@2 85.

Barley—Feed, $1 55@1 65; brewing, $1 70@1 85.

Corn—$1 85@1 90.

Oats—$2 10@2 40.

Potatoes—Old, 40@70c; new, $1 50@1 75.

Gold—107; Greenbacks, 94½@95; Silver, 93½@94.

Liverpool markets—12s 7d@12s 2d for average California; 13s 3d@13s 6d for club.

PRATT'S
MINERAL
COLZA
OIL.
300° FIRE TEST.
Chas. Pratt & Co., New York,
Sole Proprietors and Manufacturers.
To Consumers of High Fire-Test Mineral Oils.

YOUR ATTENTION IS PARTICULARLY INVITED to our 300° Fire-Test Oil, called "Pratt's Mineral Colza," which we are now manufacturing expressly for STEAMSHIP, RAILROAD and MILL ILLUMINATION, or for use where an exceedingly high Fire-Test Oil is required. It has already been adopted by many of the Railroads throughout the country, and by most of the coastwise steamers sailing from New York, whose continuance of its use in preference to all similar Oils is sufficient commendation as to its quality. It will not burn well in the ordinary Petroleum Lamp, it being of too heavy gravity for such use; but in the German Student Lamp and those with double wick burners, we guarantee it to give perfect satisfaction producing a pure flame of great brilliancy. Our facilities for manufacturing are excellent, and equal to any demand, while the price is much lower than that of any oil in the market of the same character and fire test. The U. S. law in regard to the use of these Oils on passenger steamers is very explicit as follows:

"Any Oil which will stand a Fire Test of Three Hundred (300°) Degrees Fahrenheit, may be carried as freight or used as stores on any steamer carrying passengers."

We beg to offer the following Certificates, which have been handed us from the very best authorities obtainable, in regard to the test of the Mineral Colza Oil, and they may be considered perfectly reliable:

Report of Prof. S. Dana Hayes, Massachusetts State Assayer.

BOSTON, Mass., Oct. 19th, 1876

[COPY.]

A sample of burning Oil, marked Mineral Colza, manufactured by CHARLES PRATT & Co., of New York City, has been tested by me with the following result: It has a Fire Test of 328° Fahrenheit. It does not ignite under 328° F.

[COPY.]

Mr. ADDISON LOW, U. S. Sub. Inspector.

DEAR SIR: We have tested the sample of Mineral Colza Oil presented by you, and find it stands a Fire Test of 300° Fahrenheit, and we consider it in all respects a very superior Oil.

WONDERFUL SUCCESS
OF
DR. PAUL M. BRENAN
In the Treatment of Chronic Disease.
Positive Proof of his Wonderful Skill.
Testimony that Cannot be Contradicted.
Reliable Witnesses Testifying What he Has Done for Them.
Perfect Cures where all other Treatment had Failed.
Crowds Coming from all Parts on the Sound to Visit Him.
The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN, Tremont House, Seattle—For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well and am able to return to my business on the Snohomish. JAMES KING.

Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the palate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus; that some of the blood vessels were involved, and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and pancutaneous gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

THOMAS D. MURPHY.

Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir:* I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man.* For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me now, there seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.

Yours Truly, JOHN BALLARD.
Employed at Colman's Saw Mill.

[I will not publish any cures performed by me unless by the full consent of the parties.]

In addition to the regular Astoria Mail boats
The Steamer "Rosalia," Capt. Geo. J. Ainsworth, will leave Portland Monday, Wednesday and Friday, at 6 A. M. taking freight and passengers for CLIFTON, Oak, and all intermediate points.
The Steamer "Welcome," Capt. Joseph Kellogg, will leave Portland Tuesday, Thursday and Saturday, at 6 A. M. taking freight and passengers for BROOKFIELD, W. T., and all intermediate points.
It is intended that these Boats shall do all the WAY business, relieving the Astoria Mail Boats of the numerous delays heretofore necessary.
Freight will be received DAILY, for Westport, Manhattan, Clifton, Cathlamet, Bay View, Skamokawa and Brookfield.
J. C. AINSWORTH, President.
